

Traditional Cast Iron Rainwater Systems

Gutters

Plain Half Round

The most popular system for domestic installations. Available in four sizes: 100mm (4"), 115mm (4.5") 125mm (5") & 150mm (6"). Various size outlets to suit round rainwater pipes.

Beaded Half Round

An alternative to the plain half round system, this gutter is particularly popular in Scotland. Produced in four sizes: 100mm (4"), 115mm (4.5"), 125mm (5") & 150mm (6") with outlets to fit round rainwater pipes.

OG

The OG pattern gutter was traditionally popular in the southern part of the England in Victorian times. Three sizes are available: 100mm (4"), 115mm (4.5") & 125mm (5"). Outlets available in 65mm (2.5") & 75mm (3") diameter.

Notts OG

This gutter profile was specifically designed for Nottingham Corporation and provides a larger capacity than the traditional OG pattern. Available in 115mm (4.5") only with a choice of outlet sizes to suit.

G46 Moulded

A popular choice for larger properties with a pleasing appearance due to the internally jointed design, creating a continuous uninterrupted gutter line. Available in two sizes: 100mm x 75mm (4" x 3") & 125mm x 100mm (5" x 4") with outlets in various sizes for round, rectangular and square rainwater pipes.

Deep Half Round

A high capacity gutter available in two sizes: 100mm x 75mm (4" x 3") & 125mm x 75mm (5" x 3"). Outlets to suit 65mm (2.5") & 75mm (3") round rainwater pipes.

Box

This gutter is commonly used on commercial buildings due to its high rainwater capacity. Manufactured in size 100mm x 75mm (4" x 3") and a choice of outlets for round, rectangular or square pipes.

All our gutters are supplied in standard 1829mm (6ft) lengths and the range of fittings includes outlets, angles, stopends, union clips and fascia brackets.

Rainwater pipes available in round, rectangular & square shapes all 1829mm (6ft) long, together with a range of fittings including bends, branches offsets, access pipes and shoes.

The complete product range is supplied in a grey zinc phosphate primer coat suitable for undercoat and gloss finish of your choice.

Hargreaves Foundry has been in the cast iron business for over a century and this has provided a legacy of knowledge, experience and skills that equips us to meet the needs of our customers.

We are able to offer not only standard products detailed here but also many special patterns of gutters, pipes and rainwater heads.

For all your cast iron rainwater requirements we have the range available to offer a solution.
